Exploring your creative side

Acorn Open Studios was formed in 2024 with the idea of showcasing the creativity hidden in East Berkshire, bringing a greater understanding of what what artists do and improving accessibility to visual art in our local communities. Each artist brings their own expertise in painting, mixed media, drawing, collage, glass, metal, ceramics, sculpture and printmaking and by opening our working studios we provide a unique opportunity for people to talk to and see how an artist works.

'Are you feeling inspired?'. If the art you have seen has made you want to explore your creative side then please check out our local artists-run or on-line courses and local art groups who welcome new members of all ages and skills. To download a copy of this Information Sheet please visit the Acorn Open Studios website via this QR Code.
